Many owners and general contractors have instituted both mandatory and voluntary drug and alcohol testing. Their requirements are designed to prevent accidents and injuries resulting from the misuse of alcohol or the use of controlled substances by their employees and the employees of all contractors and subcontractors working on all jobsites.

This course has been designed to help you:

- Development and implement an aggressive program to help you meet or exceed all drug and alcohol testing requirements.
- Set up proper testing facilities to ensure accurate and documented results.
- Maintain employee records to conduct proper record keeping and selection of random tests when required.

Course Length approximately 2.0 Hours
